[Industries Served](#)

[References & Resources](#)

Dos Santos Engineering is built on decades of engineering expertise in structural and mechanical engineering, bulk material handling, and conveyor system design. Our team of licensed professional engineers and technical specialists brings deep, specialized knowledge to every project â?? from single-drawing PE stamps to multi-year engineering support relationships.

Each member of the DSE team contributes unique strengths that make the team greater than the sum of its parts, with a shared commitment to delivering rigorous, practical engineering that industrial clients can rely on.
